2024 BENCHMARKING SURVEY

www.CulturalSafeguardAlliance.org

About Us

CSA emerged through regular monthly dialogues centered on the safeguarding of cultural properties with security and safety experts from around the world. We are focused on the exchange of expertise and mutual support regarding significant matters in the field.

Who We Are

Founded by:

- Adam Raffone
- James MacSkimming
- Stephanie McKenna

What We Do

CSA's goal is to cultivate cooperative efforts and tackle the modern-day challenges faced in the real of cultural security and safety. Our network is dedicated to guiding and supporting institutions, and facilitating access to resources.

Why Do A Benchmarking Survey?

Similar Questions

We all ask each other the same questions!

Why not get us all the answers we need on a larger scale.

Options & Trends

Whether you are new to this industry or a veteran, you don't always know what options are out there or what is new and upcoming.

Sense of Community

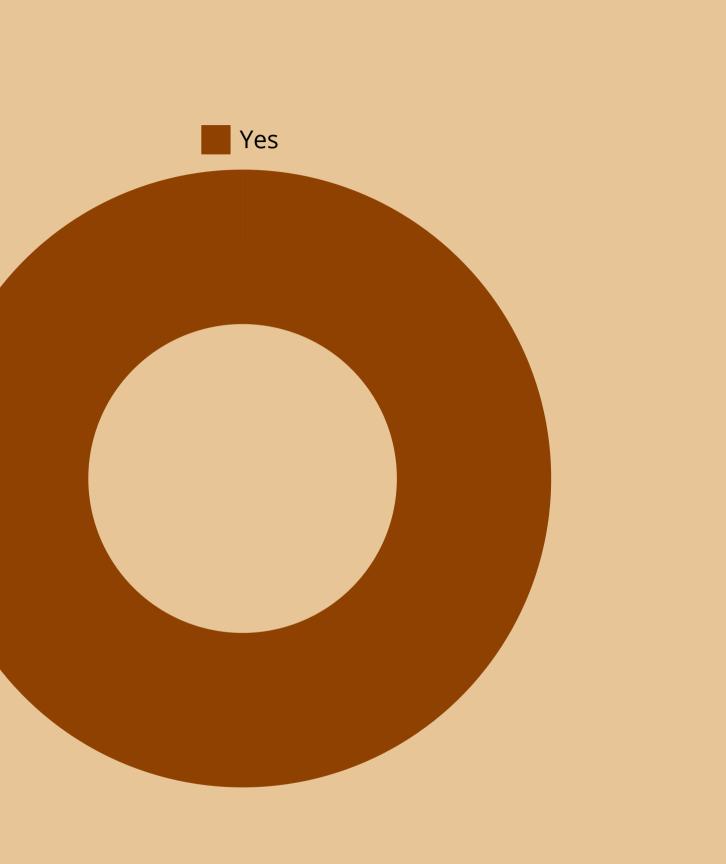

Sometimes we can all feel like we are on an island, and a benchmarking survey helps us see how we are connected.

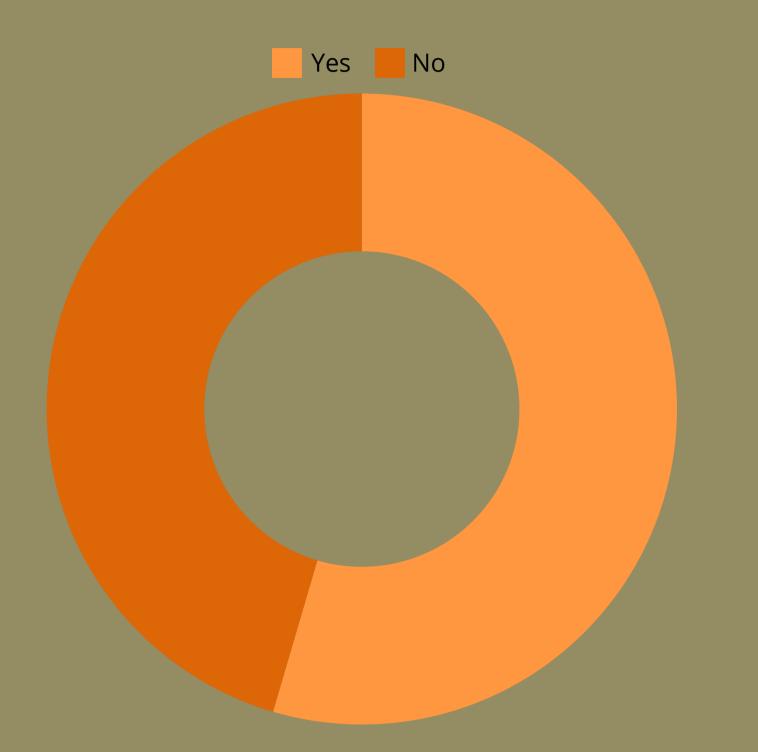

Data Driven Decisions

Executives love data, and benchmarking surveys are a great way to determine if you are in line with industry standards.

Pre-Session Surveys

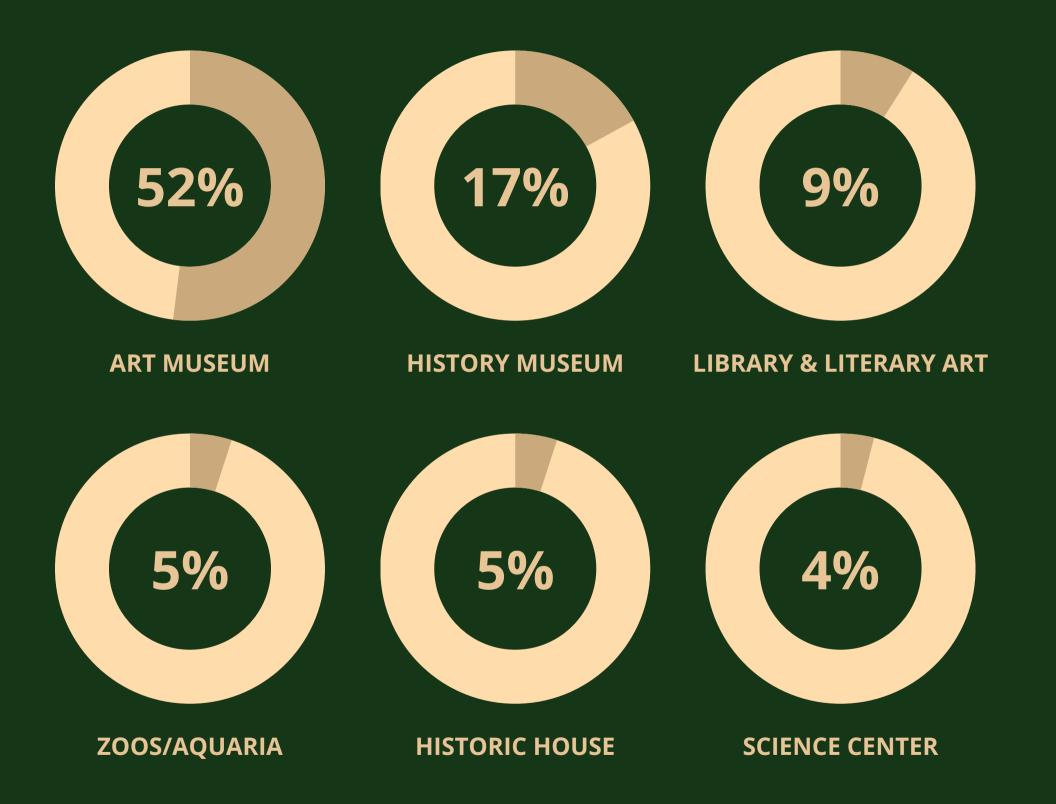

Do you feel the data in the benchmarking survey will be helpful for you and your institution?

Pre-Session Surveys

Have you ever used benchmarking data to explain or justify requests or needs to higher leadership in your organization?

Survey Responses

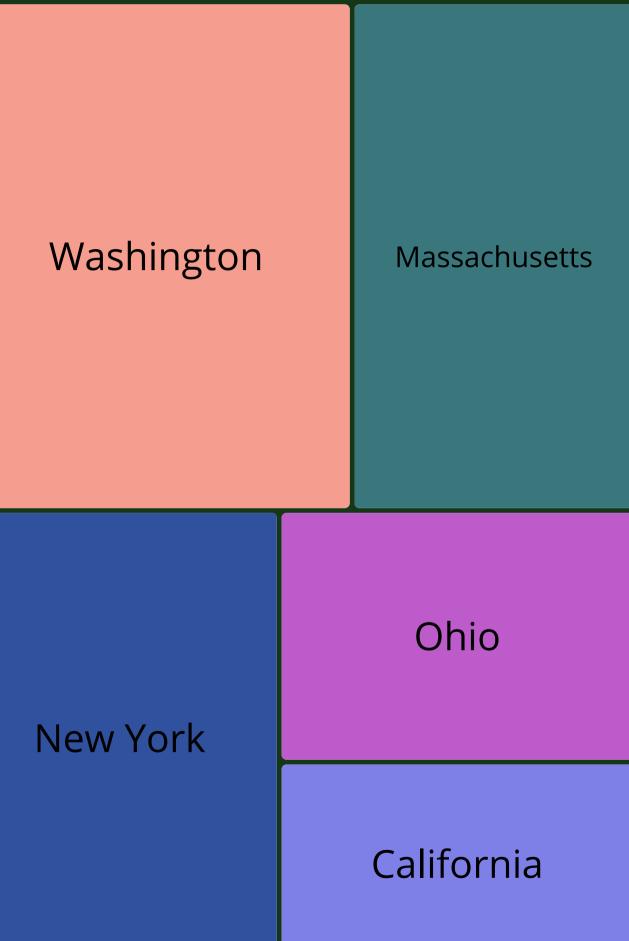

Collected over several weeks, we aimed to reach as many different types of cultural properties as possible.

We received responses from 75 different institutions this first year!

Each institution was only allowed 1 submission.

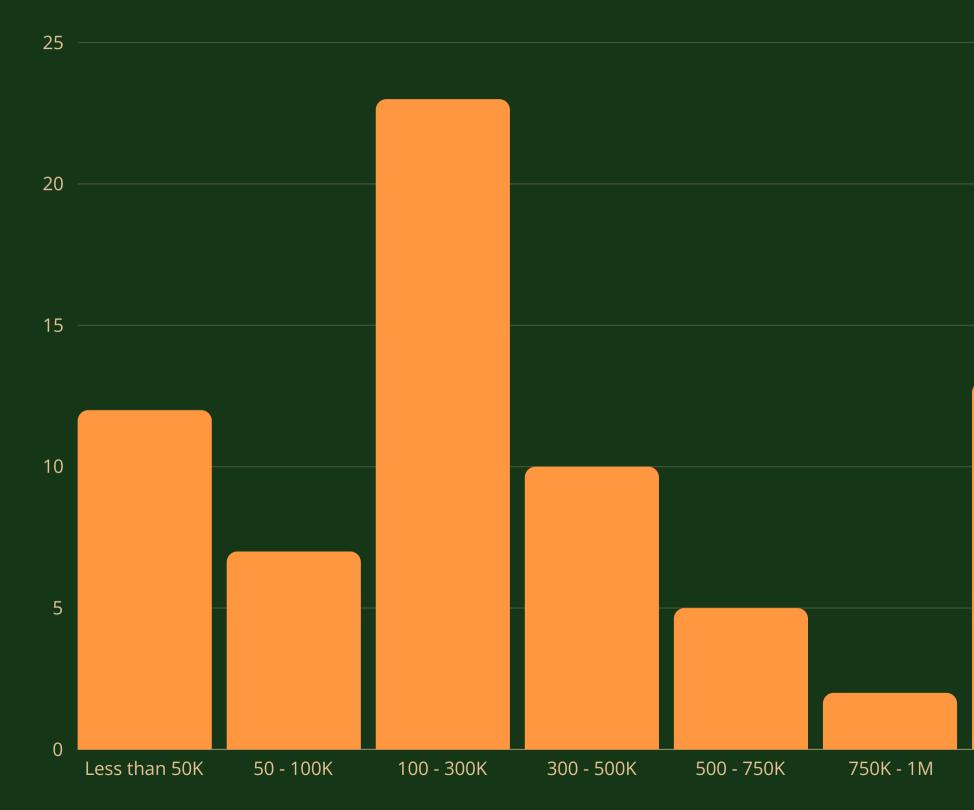

Questions were designed intentionally to coincide with other related industry surveys such as the American Alliance of Museums.

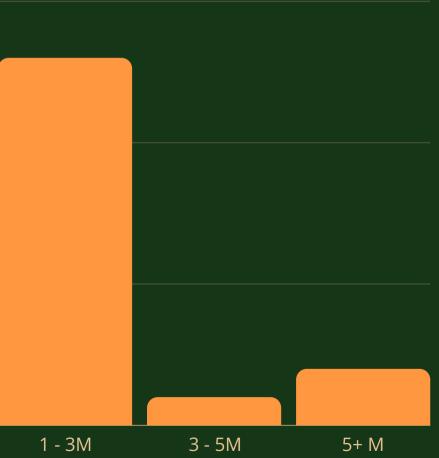

Where is your institution located?

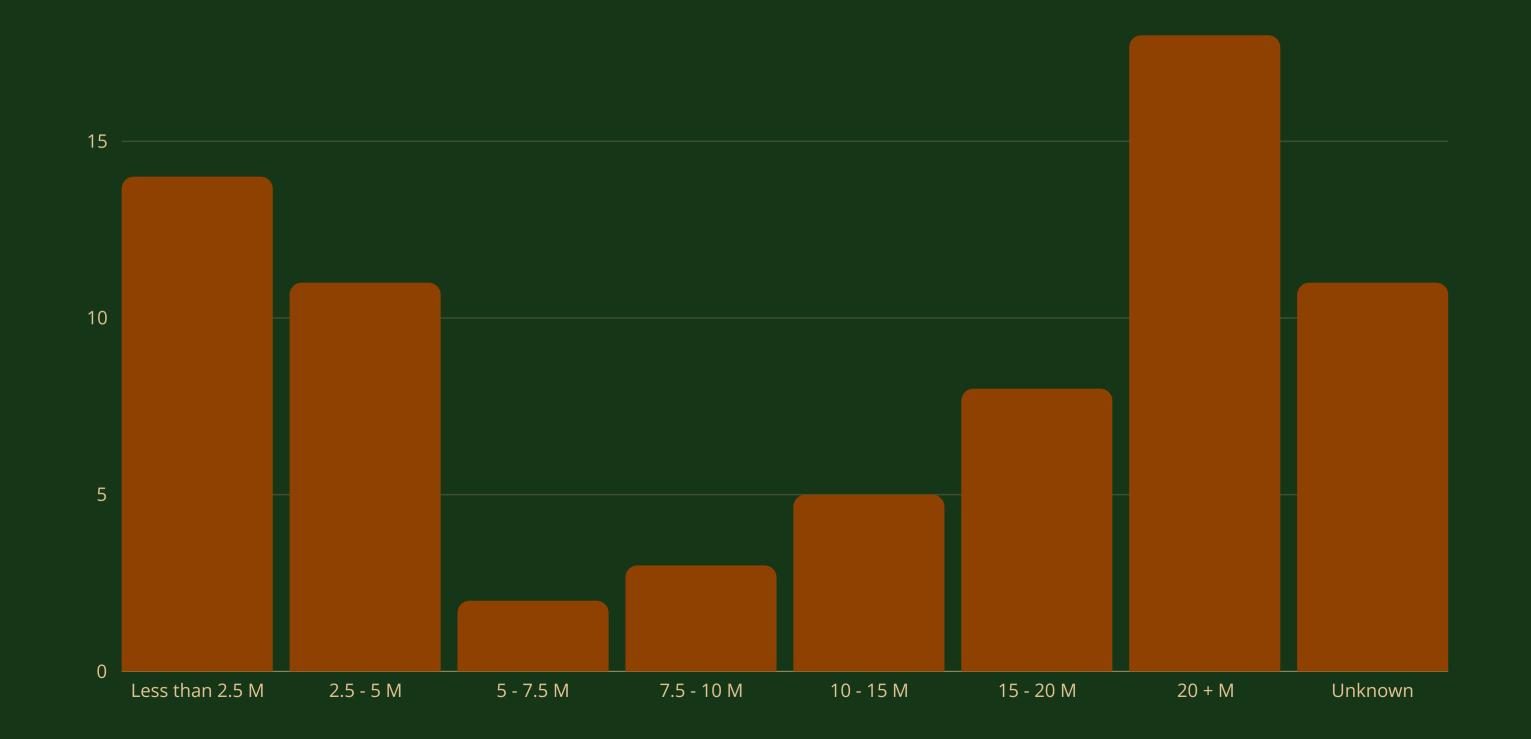

Florida			Arkansas	Colorado
Texas	Connecticu	ıt	Illinois	Indiana
